

*Introducing...*

*James Hobart*

*Class of 1972*

*Hall of Fame, 2011*

Jim Hobart left Powell High School after graduating, with a love of flying that included trips from the little local air field on Emory Road. He pursued a dream of a career in aviation, attending Embry-Riddle Aeronautical University and receiving his BS in Aero Safety and Management followed by a Masters of Aeronautical Science with focus on safety and operations.

Jim has experienced a career with both international and domestic airlines along with government regulators in the area of aviation safety. His responsibilities have varied from piloting, to managing flight safety programs, to internal audits and evaluations, to risk analysis and management, to aircraft safety accident and incident investigation. He also served as Chair of the Flight Safety Committee at the Air Transport Association.

Jim's love of flying, attention to detail, and preparation involving air safety has offered the opportunity for mandatory real-time observations of cockpit, cabin, dispatch, and simulator operations, and assisting in final reports and follow-up of the respected findings. His life's work has contributed to the safety of our airways.

Presently, Jim Hobart continues his work in flight safety as a consultant in the field of aviation.

Jim, we salute you and your life contributions!
